RE: Re-Registration

Attached is the re-registration form for the 2008-2009 school year. Although it seems early to be thinking of next year, budgets must be prepared and decisions must be made long before the first September bell rings.

Almost fifty years ago, St. Joseph School was founded to provide a faith-based education for the children of St. Joseph Parish. Today, as a regional school, it strives to carry on that mission for children of many different parishes. Its students continue to excel as they move on to high school, empowered for their future.

If enrollment allows for the 2008-2009 school year, I currently plan on maintaining all programs at the present level. Ability groupings in Math will begin in Grade 6 and English Skills will continue to be offered as an alternative to foreign language. If you are uncertain about your plans for next year, I ask you to be honest so that I can take your uncertainty into consideration as I make budget decisions. If you simply do not return your form, the decisions I make could impact the availability of programs. If you send in your registration and do not return, your lack of candor could adversely impact the employment of a teacher just before the new school year begins.

I believe that most of you will agree that SJRCS is a very good school. Its academics are sound. Its faculty is qualified and dedicated. Everyone at the school cares deeply about its students. Our parent community is generous, not only with material goods, but especially with time and talent. Our clergy is supportive as is the Diocese. We have many reasons to be proud. If you are looking for perfection, you will not find it here. If you have a broader perspective and look at our community as a whole, you know that our children are well served. I ask you to spread the word among your friends, neighbors, family, co-workers and fellow parishioners. You are the only ones who can help to strengthen this school community during these difficult times for Catholic Education. With this in mind, the Finance Committee has agreed to offer a \$400 bonus to any family who actively recruits another family for SJRCS if that new family registers and stays through the 2008-2009 school year. More details on this will follow and a form will be available in the school office. The form will need to be completed by the recommending family.

Please honor the deadlines for registration. Remember that limited financial aid is available and that the deadlines for application also need to be respected. If you are a non-supported family but believe that you now qualify for support, make certain that you return the appropriate form to our Business Office before March 15<sup>th</sup>.

Thank you for putting your faith in us, for sharing your children with us for a part of every day, and for being so generous to our school community. May God bless each of you.
