Dear Fr. Sauppé and staff,

Thank you for letting us in for our Bible Study every Monday and also for the use of the rectory dining room. Please let your staff know the church grounds and cemetery are beautiful. It is very well maintained, truly as show place...something to be quite proud of, indeed.

Preparing for an Emergency

Making a preparedness kit is one important way you can protect yourself and those around you according to the CDC. Remember that there are many types of emergencies- from those caused by illness to natural disasters-and you need different types of kits for a variety of situations.

Having an emergency supply kit for your home is critical if you need to shelter in place during a tornado or flood or cannot go out to the store during a winter storm. Your kit should include at least a 3 day supply of food and one gallon of water per person per day. Remember to include foods that will not spoil and that are easy to make. Don't forget a manual can opener. The home emergency kit should also include a first aid kit, a flashlight with extra batteries, a portable charger that can charge a phone without being plugged in, battery-powered or crank radio, copies of important documents like insurance cards and immunization records.

Make sure to keep at least a 3 day supply of medications and any other medical supplies that your family members use on a daily basis. If you have young children, be sure to include diapers, bottles and baby formula or food. Older adults may need a cane, walker, or hearing aids with extra batteries. Store your supplies in a container that is easy to carry. Label each container and store them in a spot that is easy to get to. Check the expiration dates on food, water, medicine and batteries at least twice a year.

In an emergency, don't forget about your pets. They also need food and water for 3 days. Make sure you have a sturdy leash, harness, and carrier so you can get your pet to safety. Finally, store your pet's medicines and medical records in a waterproof container. Be sure to keep current photos and descriptions of your pets to help others identify them and prove that they are yours if your pet is lost during or after an emergency.

HTOTW: I thought this quote from Jackie Joyner Kersee was appropriate. "It is better to look ahead and prepare than to look back and regret".

October is Pro-Life Month. There are baby bottles in the main vestibule of the church. Pick one up on your way out, toss your loose change or donation in it and return it at the end of the month. All donations will be sent to the Women's Care Clinic.

Dorothy Eggett would like to thank all those who have inquired about her and for their prayers and well wishes. If you would like to send her a card to cheer her you may send it to:
